Password: user

1. INTRODUCTION

The SFT1510 is housed with 3 HD input cards and can encodes 12 HD signals with video compression standards of H.264 and H.265. It also comes with different IP protocols, making it ideal for any scenario that requires encoding and distributing multiple HD video signals.

2. FEATURES

1. Video encoding in H.264/H.265 and audio encoding in AAC.
2. Supports all major resolutions from 480i through 1080p60
3. Offers 12 IP output address in SPTS
4. IP streams over protocols of RTP/UDP/RTMP/RTSP/HTTP/HLS/SRT
5. Text overlay and image overlay in any place of TV screen
5. Easy configuration with built-in Web UI

3. SPECIFICATION

HDMI INPUT	
Input Connector	HDMI 1.4 *12
VIDEO	
Encoding	H.264/H.265
Input Resolution	1920*1080_60P/_50P
	1920*1080_60i/_50i
	1280*720_60P/_50P
Bit Rate	20 ~ 19000 Kbps
AUDIO	
Encoding	AAC

GENERAL	
Input Voltage	90 ~264VAC, DC 12V 5A
Power Consumption	
Rack Space	1RU
Dimension (WxHxD)	480*44*350mm
Net Weight	4.11KG
Language	中文/ English

IP OUTPUT	
Output Connector	1*1000Mbps port
Transport Protocol	RTP/UDP/RTMP/HTTP/HLS/SRT
Output Transport Stream	SPTS
Broadcasting Mode	Unicast and Multicast
Graphic Overlay	User-defined running text and image overlay
